

FROM THE HEART OF THE ALPS

**SUFFICIENT LEVEL
OF OXYGEN IN
OUR BLOOD IS
NECESSARY FOR**

2

reducing stress

maintaining energy and vitality

optimising sports achievements

reducing jet lag effects

faster muscles and tiredness recovery

maintaining cognitive abilities (including memory and reaction time)

managing effects of high altitudes more easily

reducing consequences of polluted air on our body

maintaining alertness

WHO IS IT FOR

People in the business world

Wellness

2

Long distance drivers

People in polluted cities

Pilots and passengers of private, sports, business or ultra-light aircrafts

Hikers to higher altitudes

Professional and recreational athletes

WHEN TO USE

FeelOXY

when we feel tired and low in energy

before important meeting to calm nerves

before training - to get energy boost

during training - for maintaining training power

2 *at work when concentration is decreasing*

in cities with polluted air and cities near deserts

in conference rooms or bad ventilated places

on business trips to manage stress

on business trips - for faster recovery

after training

on long distance driving

at higher altitudes

during studying

During sport activity oxygen saturation in the blood drops

**IMPORTANT
TO KNOW
FOR
SPORT ACTIVE
PEOPLE**

2

Our body needs maximum level of oxygen in our blood to function on peak levels

Supplemental oxygen is not on the list of banned substances issued by the World Anti-Doping Agency

Supplemental oxygen increase energy, power, endurance and reduce regeneration time

For those who work all day, are under constant pressure, travel a lot and often in need for high focus

Increases mental concentration

Increases energy

Reduces symptoms of stress and sleep deprivation

Reduces jet-lag after business trips by plane

2

FeelOXY
FOR PILOTS
AND
PASSENGERS

Reduces dizziness and impaired reaction time

2

Increases the concentration and reduces the level of stress

Improves maintenance of control over the management of aircraft

Reduces fatigue and sleepiness at the altitudes up to FL - 120

Improves oxygen saturation in the blood

Reduces the jet-lag effect

Reducing exhaustion on long journeys

Reducing the level of stress in traffic jams

Shortening the reaction time

Increasing concentration

FeelOXY
ON LONG
DISTANCE
DRIVING
FOR

2

Improves your oxygen saturation in the blood, what is important especially at the higher altitudes where the air is thinner

Fills you with energy and power

**FeelOXY
FOR
HIKERS AND
TREKKERS**

2

Reduces the negative effects that come with higher altitudes

Provides your cells and your body with additional oxygen

Reduces fatigue and sleepiness

**SUPPLEMENTAL
OXYGEN
IN
WELLNESS**

Fills the skin and the body with vital energy

Improves the structure and elasticity of the skin

2

Reduces the number and depth of facial wrinkles

Slows down the ageing process

Refreshes our skin

All natural

No artificial substances

Full can is very light but it is NOT empty

Filled with high quality compressed pure oxygen in gaseous state

Not declared as doping by the World Anti-Doping Agency

All materials from EU
